

THE RANCH

— W I N E R Y —

Bottling statement

Every label approved by the TTB (www.ttb.gov) must have a vintner's statement on the declared front or back label with the name of the fictitious business name along with the location of the bottling winery. You must have a DBA addition for each fictitious business name that you would like to use on your label. This must be done prior to label approval. Please download a sample of the letter of authorization and fax back to 707-963-4521. This process takes 30 days and can happen at the same time as label approval.

Produced Statement may only be on the label if the wine was produced and declared at the bottling facility. If you meet these requirements then you may say:

- * Produced and bottled by (fictitious business name), St. or Saint Helena, CA 94574

Vintner's Bottled Statement will be used when shipping wine into our facility from another bonded facility or was moved here after produced somewhere else. You may say:

- * Vinted and bottled by (fictitious business name), St. or Saint Helena, CA 94574
- * Cellared and bottled by (fictitious business name), St. or Saint Helena, CA 94574
